# Heavy Duty Rack

At Pavitra Metaltech PVT. LTD., we are one of the industry's leading manufacturers of high-quality Heavy Duty Racks in Rajkot, India. We are a professional manufacturing company offering a complete range of fully custom-made, durable, and economical heavy duty storage solutions designed to meet industrial requirements while staying within budget. Whether you are looking to buy standard heavy duty racks in India or searching for a reliable Heavy Duty Rack manufacturer in Rajkot for customised and economical storage solutions, Pavitra Metaltech PVT. LTD. is your trusted destination. We work closely with our customers to deliver storage systems that maximise space utilisation, efficiency, and long-term.

## Heavy Duty Rack Description

We offer premium quality Heavy Duty Warehouse Racks that are specially designed to meet demanding storage requirements of warehouses, industries, and commercial facilities. These racks deliver superior load-bearing strength and long service life. Manufactured using robust metals and precision engineering, our heavy duty racks are corrosion-resistant and suitable for continuous industrial usage. Both standard and customised configurations are available.

# Medium Duty Rack 150 Kg/Level

At Pavitra Metaltech PVT. LTD., we design and manufacture reliable Medium Duty Racks (150 Kg/Level) that are ideal for organised storage of light to medium-weight goods. These racks are widely used in retail stores, workshops, stock rooms, and small warehouses where flexibility and easy accessibility are essential.

As a trusted Medium Duty Rack Manufacturer in Rajkot, India, we offer durable, cost-effective, and customisable storage solutions engineered for strength, stability, and long-term performance.

## Medium Duty Rack 150 Kg/Level Description

We manufacture high-quality Medium Duty Racks (150 Kg/Level) that are designed to meet the organised storage needs of retail stores, workshops, stock rooms, and small to medium warehouses. These racks are ideal for storing cartons, boxes, tools, spare parts, and non-palletised goods efficiently.

Built using strong steel components and precision manufacturing, our medium duty racks provide excellent stability, durability, and uniform load distribution. The adjustable shelving system allows easy modification to accommodate different storage heights and product sizes.

# Medium Duty Rack 250 Kg/Level

At Pavitra Metaltech PVT. LTD., we manufacture robust and high-performance Medium Duty Racks (250 Kg/Level) designed for organised storage of medium to heavy-weight goods. These racks are ideal for warehouses, workshops, industrial stores, and commercial stock rooms where higher load capacity and durability are required.

As a reliable Medium Duty Rack Manufacturer in Rajkot, India, we provide strong, economical, and customisable racking solutions engineered for superior load-bearing strength, stability, and long-term operational performance.

## Medium Duty Rack 250 Kg/Level Description

We manufacture premium-quality Medium Duty Racks (250 Kg/Level) designed to handle higher load requirements while maintaining organised and efficient storage. These racks are ideal for warehouses, workshops, industrial stores, stock rooms, and commercial facilities where medium to heavy-weight goods need to be stored safely.

Constructed using heavy-gauge steel and precision engineering, our medium duty racks ensure superior strength, stability, and uniform load distribution. The adjustable shelving system allows flexible configuration to accommodate different product sizes, weights, and storage layouts.
